

# 5121 Dryer Vent Basement Hopper

The 5121 Basement Hopper is an attractive, practical new window from Gorell that lets you easily vent your clothes dryer to the outside without having to create a separate hole through the walls of your home. This window is custom manufactured by Gorell Windows & Doors, which was named ENERGY STAR® Partner of the Year from 2004-2009 and Sustained Excellence Award winner from 2006-2009.

1. Heavy-duty frames are fused together at the corners at temperatures near 500 degrees F.
2. Soft-white vinyl (clear through) complements practically any architectural style of home.
3. Clear double-insulating glass provides improved thermal performance over standard single-pane glass.
4. Automotive-type glazing provides a super-tight seal.\*
5. Flexible bulb gasket around all fixed and operating sashes, as well as weather stripping around the sash perimeter, provide an uninterrupted weather seal.
6. Louvered vent—including the metal tube for easy attachment to your dryer hose—provides an unobtrusive flat surface to the exterior of the window. (Vented side can be specified left or right.)
7. Insulating foam wrap around the frame significantly reduces the possibility of drafts from between your window and walls.

**Note:** Maximum size: 48" x 36" Minimum Size: 24" x 13 3/4"

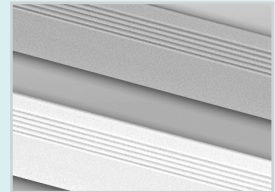

\* Feature not visible in photograph because of its location inside the window frame.

## BASEMENT HOPPER OPTIONS

**POLYCARBONATE GLAZING** is an attractive option to glass that provides privacy and can be a deterrent to intrusion.

**ALMOND COLOR VINYL** frame provides a muted accent to the appearance of your home. (Dryer vent and handle are white on almond hopper windows.)

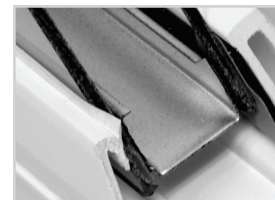

**HIGH-PERFORMANCE LOW-E GLASS SYSTEMS** with argon or krypton gas fill help keep your home energy bills lower—and comfort levels higher.

8. Heavy-duty metal latch and keeper provide enhanced security to your home's basement level.

9. Intercept® warm-edge spacer system reduces heat loss through the glass.

10. Unique millwork design on the interior master frame provides the look of hand-crafted molding.
