

Making homes remarkably comfortable and highly energy efficient

R-Comfort™ Rafter Wrap

R-Comfort™ Rafter Wrap—Space-age solution to home energy challenges

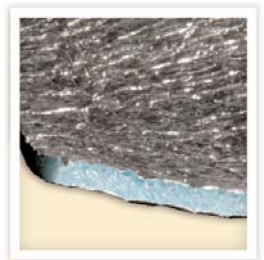

Gorell's new R-Comfort™ Rafter Wrap is your ideal solution to an uncomfortable home and high home energy costs. This incredible reflective insulating product—inspired by space-age technology—is installed in the rafters of your attic easily and cost-effectively with remarkable results year round.

In warm weather, R-Comfort Rafter Wrap reflects heat away from your attic and roof. In cold weather, it reflects heat back into your home, making your living area much more comfortable and keeping your heating system from running constantly.

R-COMFORT RAFTER WRAP:

- Improves the ability of your attic to insulate your home.
- Makes your home more comfortable year round.
- Lowers cooling costs in summer and heating costs in winter.
- Installs easily and quickly.
- Provides a permanent insulating barrier that is puncture- and tear-resistant.
- Qualifies for the 2010 federal tax credit program.
- ENERGY STAR® labeled.
- Class-A, Class-1 fire-rated.
- Tested to ASTM standards.
- Warranted for 20 years.

R-Comfort™ Rafter Wrap

Gorell R-Comfort™ Rafter Wrap is made of nontoxic, hypoallergenic materials. It features a pure aluminum facing that's "flame-laminated" to closed-cell polyethylene on two sides. Similar looking insulation products in the marketplace are not as effective and safe as Gorell's R-Comfort Rafter Wrap. Some use flammable adhesives with bubble-wrap, fiberglass or other insulating materials. These and other radiant barrier products do not yield the high R-values and level of thermal performance that R-Comfort Rafter Wrap provides.

This remarkable reflective insulating product is offered in two styles. R-Comfort Rafter Wrap T is "tabbed" to make installation easy in rafters with trusses or dormers. When stapled or screwed to your attic rafters, it maintains its effectiveness because the tabbed ends are also made of closed-cell polyethylene insulation with aluminum facing. R-Comfort Rafter Wrap T is available in two widths—to accommodate both 16-inch and 24-inch wide roof systems.

R-Comfort Rafter Wrap NT is a core-perforated product that's non-tabbed for more straightforward rafter applications. It comes in 48-inch wide rolls. Both styles of R-Comfort Rafter Wrap can also be installed on attic gable walls for even greater results.

R-Comfort Rafter Wrap comes in light, easy-to-handle rolls and cuts cleanly and installs easily. This and other R-Comfort products are manufactured for Gorell by Environmentally Safe Products, Inc., a leader in reflective insulating materials for more than 20 years.

PRODUCT NAME: R-Comfort Rafter Wrap Insulation

FINISHED DIMENSIONS:

- R-Comfort Rafter Wrap T: 16" W by 125' L (standard); 24" W by 125' L; 18" W available by special order.
- R-Comfort Rafter Wrap NT: 48" W by 125' L

CORE MATERIAL: Polyethylene

FACINGS AVAILABLE:

- R-Comfort Rafter Wrap T: Foil
- R-Comfort Rafter Wrap NT: Core-perforated Foil

PERM RATINGS:

- R-Comfort Rafter Wrap T: ASTM E-96: 0.008
- R-Comfort Rafter Wrap NT: ASTM E – 96-7, or 40 grams\day-m2)

FLAME AND SMOKE

- R-Comfort Rafter Wrap (T and NT): ASTM E-84

FLAME SPREAD: R-Comfort Rafter Wrap (T and NT): Less than 25

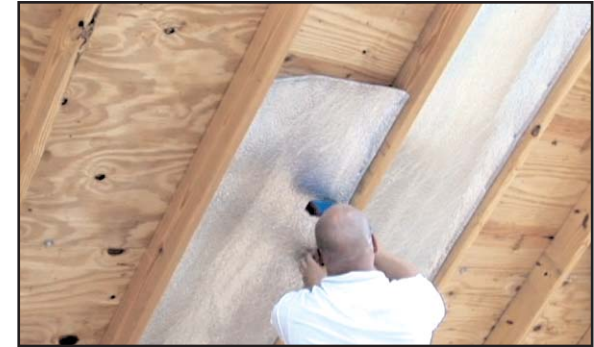

SMOKE DEVELOPED: R-Comfort Rafter Wrap (T and NT): Less than 50

R-VALUE: R-Comfort Rafter Wrap (T and NT): Up to R-13

IMPORTANT: T0001 foil tape is recommended with R-Comfort Rafter Wrap T.

WARNING: Although R-Comfort insulation products are all ASTM fire tested, it is recommended that they not be exposed to open flame or other ignition sources of sufficient intensity during shipment, storage or installation.

CAUTION: Aluminum is an electrical conductor. Please use caution using this product when working around electrical sources.

Gorell R-Comfort Rafter Wrap installs easily and quickly. For R-Comfort Rafter Wrap T applications, simply staple the insulation tab to the inside of the rafters.

A Green Future

Gorell works hard to be an environmentally responsible "green" manufacturer. It's our goal to produce the most energy-efficient products available because we recognize the value this brings to you—and to the country. We strive to save energy, safeguard the environment and reduce our carbon footprint. This will help decrease America's dependence on foreign countries for oil and other resources—and help everyone save money.

Gorell R-Comfort Rafter Wrap qualifies for the ENERGY STAR® label.
